SOUTH AMERICA.

A More Peaceful Outlook for the South American Republic. PANAMA, Jan. 10.—Advices from the South Petito are favorable. Chili 16 quiet and presperets, and the same may be said in a modified sonse

of Peru. At least, in the latter Republic the condition of affairs was improving at last advices, which were to December 2s. The revolution in Ecuador is reported to be at an end. In Colombia there was still a state of actual warber when the latest disjustence were received from the interior, but hopes were destinated that peace would speedly be restored. From Central America nothing of interest has Prom Central America nothing of interest has received, state in the last list for New York Technol. The hope in the last mail left for New York Technol. The left is the last list for New York Technol. The last hope is a shipped to any great extent. The first of the copy will go to San Francisco, owing to the better price commanded there. Everything is quiet on the lathmus. The dry season has come at last, and very body is more cheerful. The United Statessteamers Penagod, and Chank are still here, also the Dating. Business continues very duit.

A Remarkoble Career.
Mr. John Pope Hennessy, who is going out to
Hong Kong as the English Governor, with a
salary of £5,000 a year, has had a very remark.
In 1850, when he was a clerk in a Hong Kong as the English Governor, with a calary of \$6,000 a year, has had a very remarkable current. In 1820, when he was a clerk in a Government office, about twenty-five years of age, and with about £50 a year stipend, he was selected by Carolinal Wiscoman to stand for Kings county at the general election which the them Lord Derby had suddenly smootneed. The ground selected which the same the selected by the same to the proving electron which the cheal of the prill. He made no particular rigure in Parliament, but remained these till is 5, when he lost a re-obseition. He was thus Ministry was formed. One of the first things it did mas to give fir. Hennessy the Governorship Laduan. There he settled for a while and married. Then he was promoted to the West coast of Africa, then to the Leevard Islands, and now goes to Hong Kong. He success is the more engarkable from the fact that he is a Roman Catholic of Ultramontane views.

The Way the Compromise Bill is Regarded. A canvass of the Ohio delegation was made yesterday merring with regard to the compromise. All the Republishes but Foster are opposed to the bill, and so are a majority of the Democrats. Foster received fity letters from Ohio yesterday morning, every one being in opposition to the bill.

The Iewa delegation is almost solid in favor of the compromise. With the exception of Banks, the Massachusetts delegation favor it. All the Maine delegation seems a solid against it. The Vermont delegation are solid against it. The Yempertynamis delegation is about evenly divised. The Himos delegation will all vots for the bill, with but three probable exceptions, under protest. The Kansas delegation will support the bill. The Republicans from the South are almost unanimous in apposition. A recont meeting of Republicans from the South are almost unanimous in apposition. Excessive Knowledge.

"What is a 'cold deek 'and a 'bob-toll flush';" a young lady, the light of a South Hill home, asked the other evening, looking up from a newspaper she was reading. "Why," said her elder brother, "a cold dee—," and it was worth fitteen cents for a student of human mature to note how suddenly he checked himself, and what a variety of conducting emotions played over his face as to bett over his book, and protonded not to perceive the aborg glause of reapisious inquiry which his father also at him over his spectacles, while the sliches was approfound and as will that the other members of the family looked up and gared around in dumb annament. An excess of knowledge is oftentimes a burden. What does a man want to make himself a walking encyclopadia lor?—Handreys.

Important Archivological Discovery.
The currespondent of the London Daily New The correspondent of the London Baily News in Rome telegraphs that an important archaeological discovery has just been made in the Ostrion ratacombs, two miles along the Vin Nommana. Signor Rossis and aircady established the spot as that where the Apostle Feter was won to baptize, and where he first sat in the crypt of the subterranean chapel. Signor. Armellini has succeeded in descipating an inscription in which the name of St. Peter occurs, and which would seem to place beyond doubt the previous canciusions as to the Apostle's connections with this Ostrian catagorie by.
